Microcredentials Thermometer Webinar

Microcredentials in North Macedonia

Центар за развој на стручното образование
Qendra për zhvillimin e Arsimit Profesional
Center for the Development of Vocational Education

Current status Legal framework

1

- Law on National Qualifications Framework (NQF)

2

- Law on Adult Education

3

- Law on Vocational Education and Training (VET)

Current status Strategic framework

1

- Strategy for Adult Education 2025-2030

2

- Education Strategy 2026-2032 with Action Plan 2026-2028

BEM – Beyond Europe with Micro-credentials

Erasmus+ Capacity Building in VET | 2023–2026

- Transfer of experience from **ECVET to micro-credentials**
- Adaptation of European approaches to **non-EU national contexts**
- Micro-credentials linked to **labour-market needs**

WHAT DID WE DO?

- Stakeholder and labour-market needs analysis
- Development of **sector-relevant micro-credentials**
- Cooperation with regional companies
- Application in **initial and continuing VET**
- Recognition of learning acquired through **informal learning**
- Focus on accessibility and inclusion

KEY OUTPUT

10–12 micro-credentials per country
↓
Mapped in a multilingual **Skills Bank**
↓
Potential for **transfer across countries and sectors**

Micro-in-Act Project

- Support the adoption of micro-credentials in educational systems by bridging policy and practice.

- 5 working packages:

- WP1 Project management and coordination
- WP2 Mapping the gaps in micro-credentials implementation
- WP3 Methodology and legislative support
- WP4 Capacity building and piloting
- WP5 Sharing, promotion and sustainability of MICRO-IN-ACT concept.

- Results: produce evidence-based recommendations, guidelines, and integration frameworks for micro credentials.

Next steps

1. • Operationalization of the legal framework.
2. • Establishment of clear quality assurance mechanisms.
3. • Defining the recognition, portability, and opportunities for the accumulation and combination of micro-credentials.
4. • Strengthening digital infrastructure and interoperability.
5. • Data improving national, so that we can understand who uses micro-credentials, in which sectors, for which skills, and with what results.
